10 x 1 x 10 Tablets

Wormtail

Oral Suspension

Pyrantel Pamoate & Febantel Oral Suspension

Pyrantel pamoate and febantel suspension is a **veterinary anthelmintic combination used to treat intestinal worm infections in puppies and young dogs, including roundworms, hookworms, and whipworms.** It works by paralyzing the worms (pyrantel) and inhibiting their energy production (febantel), often dosed per kg of body weight.

- **Effective against a broad spectrum of worms.**
- **Ascarids, Hookworms & Whipworms.**
- **Ideal dose for Puppies and young dogs up to 1 year of age.**
- **In case of accidental spillage, wash the affected area with clean running water.**
